

Apprentice Service Engineer

Salary: Competitive and dependent on experience plus discretionary performance bonus

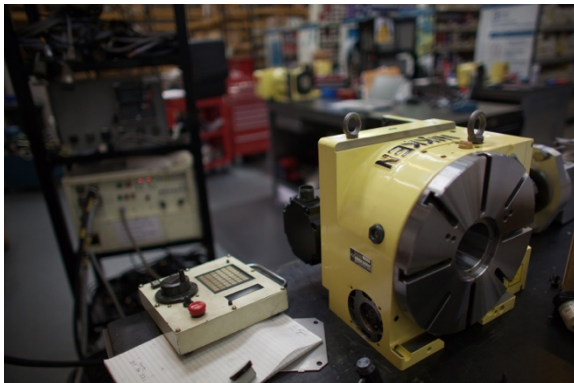

Monday to Friday 8.30am to 4.30pm (37.5 hours per week)

Nikken Kosakusho Europe Ltd are leading suppliers of world class precision engineering products including CNC Rotary Tables, NC Tooling Solutions, Tool Presetters and Spindle Optimisation Solutions which makes our elite product range the number one choice for Precision manufacturers. We supply to a range of industries throughout Europe including Oil & Gas, Automotive, Motor Sport and Aerospace.

As a founder member of the Advanced Manufacturing Research Centre, we are proud of our success in training apprentices. One of our team won Apprentice of the Year in 2015 and this year we have Nominees for awards in both Apprentice of the Year and HNC Achiever of the Year. Our former apprentices are working as qualified engineers right across the business in technical sales, service and management roles.

Jonathan Watson, Service Engineer and Maintenance Apprentice of the Year 2015, working on one of our rotary tables

Our Workshop

Our business is growing and we are now looking for our next apprentice for March 2019, so you could be part of our success. Following a three year Advanced Apprenticeship in Engineering Maintenance at the AMRC Training Centre through block study and then day release, you will join our Euro Centre Service team at Barbot Hall Industrial Estate in Rotherham.

Learning from a team of experienced maintenance engineers, your new role will include:

- Preparing new units in our workshop prior to dispatch to customer locations for installation
- Providing mechanical and electrical maintenance and repair on a range of company products including rotary tables, tooling and tool presetters

Tim Bruce, Assistant Service Manager and HNC Achiever of the Year 2018 Nominee

The Spirit of Innovation

To be successful, you will:

- Have a good academic track record, particularly in Maths, and ideally Engineering. You may even have higher qualifications in another area but are looking to move into Engineering as a career
- Be hard working and with a strong desire to learn and develop, you will have a keen interest in how things work and may even have a hobby in mechanical maintenance
- Be friendly, personable and able to talk confidently to a wide range of people
- Enjoy working in a team and strive to support team goals
- Be well-organised and self-motivated and see this apprenticeship as the first step to a career with one of the best established precision engineering product suppliers in the world.

Sean Goodwin, Apprentice Service Engineer and Maintenance Apprentice of the Year 2018 Nominee filming with the AMRC team

Nikken Kosakusho Europe will be attending the AMRC's Job Matching event on Tuesday 5th February so if you want to come along and meet us, you'll get a chance to talk to one of our former apprentices. In the meantime, for more information about our company, please go to www.nikken-world.com.

To apply for our apprentice vacancy, please go to <http://www.amrctraining.co.uk/vacancy-details/apprentice-service-engineer-2> and apply for vacancy number AMRC EM323.
